

# National Day of Health and Safety in Mining 2022

STEPPING UP TO THE CHALLENGE

MINERALS COUNCIL  
SOUTH AFRICA

#MakingMiningMatter

# Safety is everyone's responsibility

Working  
together will  
help us reach  
Zero Harm

In 2021, the number of fatalities in mining increased. We have to reverse the trend. Every death is one too many.

We can achieve  
excellence in  
health and safety  
by working  
together

By following health and safety protocols, you protect your life and the lives of others.

It is your right to  
walk away from unsafe  
working conditions

Think about  
our loved ones  
every day
