# OUR NEW NORMAL

**COVID-19 will be  
with us for months  
and years to come**

Learning to deal with it must  
be our new normal

Many people  
who get it will  
not feel sick,  
but they can  
still spread it

## **Be responsible**

**Protect yourself,  
protect your colleagues,  
protect your families  
and communities. And,  
especially protect those  
who may be vulnerable**

**STAY SAFE  
AND HEALTHY**  
AT HOME AND AT WORK
