TRANSPORT AND MACHINERY CAN KILL

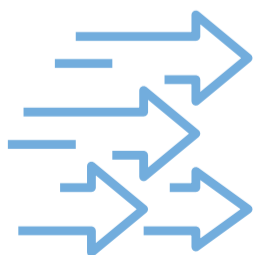

What is a T&M accident?

Any accident involving mobile mining equipment and rail bound equipment, such as Haul Trucks, LDVs and locomotives. This can either be machine-to-machine or machine-to-person accidents causing death or injury.

**Protect yourself
and those
around you.**

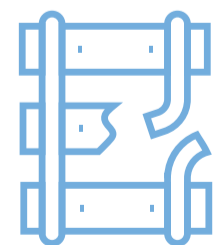

Always

Comply with site traffic management plans

Be vigilant when operating transport and machinery. Continuously identify hazards, such as blind spots in various areas of the mine. **Do not operate transport and machinery when you are overly tired**

Report poor rail conditions when you see them
